

December 11, 2023 Dear Somerset Woods Residents, Employees and Family Members, Somerset Woods Rehabilitation and Nursing Center primary focus is to provide the safest environment possible for our beloved residents and staff. This is a very difficult time for all of us and we are looking forward to getting back to normalcy as soon as possible

As of 12/11/23 there are 0 positive resident and 0 positive staff. I am pleased to inform you that CMS has updated their guidance on indoor visitation. **WE WILL NOW BE ALLOWING INDOOR VISITS AT ALL TIMES ON ALL UNITS EVEN DURING AN OUTBREAK.**

However, we are still required to adhere to the Core principles of Covid-19 Infection Prevention, which includes proper screening before entering the facility. Please keep in mind that we are still offering video chat through our Telehealth system. I appreciate your understanding and continued support. We know this is a difficult time for everyone. We remain focused on keeping our residents and employees safe and will do our best to keep communication flowing as the situation evolves. Sincerely, Judah Kutner, LNHA Administrator
